enough to notice the little speck of war and outrage which is going on in fortunately soon after he became Govwar and outrage which is going on in that portion of our own country designated on the map as Caswell county, North Carolina. Governor Holden, by his infamous lieutenant, Kirk, has gers and Confederate Judases who initiated a military tyranny as unreasoning, reckless and brutal as could be desired by any monster. Kirk arrests freely from among the best citizens, to whom he has a particular antagonism, whom he will. And when they resort to the citizen's right to have his writ of habeas corpus. both Kirk and Holden disregard and defy it, and the Government of Washington, which precends to regulate and govern the States, looks on quietly, and Grant smokes his cigar in peace. Senator Bedford Brown and ex-Governor Graham have gone on to Washington to remonstrate; and may have to follow Ulysses round to the watering places of his leisure summer tour. Every right of man, old and young and of the highest standing, is disregarded and trodden under toot; and they are dealt with as so many criminals by the felon Kirk. The people of Caswell county are flying swiftly and in large numbers from their homes, and seeking safety in the Virginia lines. The Wilmington Journal states that "Danville is filling up with North Carolina refugees tlying from the terrors of

Kirk and his lawless mob." The same paper says: -Throughout the State we read of noth tng but military orders, the movements of troops, the arrest of quiet and peaceful eltizons. The sound of the drum and the North Carolina. War is indeed upon us, Upon the one hand are the offscourings of North Carolina and Tennessee, under the command of a murderer, and on the other are the unsrused, quiet and law-abiding evernor, or who will be the next victims of his personal and political wrath.

People of North Carolina, your dearest rights are at stake. Let us meet the issue like men. Let us settle these grave ques-tions peaceably at the ballot-box, if the Governor will let us. In whatever shape he forces them upon us, let us be true to ourselves and true to North Carolina.

As the consequence of all this outrage there is one-and we are glad to say there is one-good result. It is producing a tremendous popular reaction. The Wilmington Star, making what it believes a liberal calculation. predicts it will result in the demolition of the Radical party in North Carolina. Its estimate is that the State Senate will be carried by a malority of two, and the House by sixteen-giving a majority of eighteen on joint ballot. It will be a happy denoument if the infamous measures of Holden, having no other purpose than to carry the political elections, which should be the means of giving a victory to the Conservatives. Nothing but falsehood, treachery, infamy and overwhelming terrorism and force

Captain Sam. P. Rose, will be the Democratic candidate for Floater from the District composed of the counties of Fayette, Tipton and Shelby. himself to the liberal policy of enfranchising the people of the State to the great disgust of the misletoe branches of the body politic, some of whom, like the cur Catterson, could only appreciate as logic the forcible application of his Excellency's boot. Others of them, now that the elections are approaching, seize upon the pretext to foment discord, and if possible, bloodshed; one of these is the small Judge at Little Rock, who imprisoned an editor estensibly for telling the truth about him. The true object evidently was to array classes against each other -prevent a registration of voters and exclude not only individuals but
